

Wooden Movable Alphabet

Activity Sheet · 3–6 yrs · Language

Core Concept

Children can compose words phonetically long before they can physically write letters.

Four Guided Activities

Sound Games. Say a word slowly: 'c-a-t.' Ask your child to find each letter. Build the word together.

Object Boxes. Collect small objects (pen, cup, log). Child sounds out and spells each.

Free Writing. Invite your child to 'write' anything — a story, a shopping list, a note to a parent.

Sight to Sound. Point to a letter; child makes the sound. Reverse the game once confident.

Developmental Milestones to Observe

- Recognises 10+ letter sounds
- Composes simple CVC words
- Attempts longer phonetic spellings
- Reads back their own words

Observation Journal

Use the boxes below over a two-week period. One line per session.

Date	Session length	What absorbed them	Next presentation
